- Reading all documents, the Office of Financial Aid sends to the student

Misreporting information for Federal Financial Aid is a violation of the law and is considered a criminal offense.

### **Loan Repayment & Financial Aid Disclosures**

If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If the student has received federal student financial aid funds, the student is entitled to a refund of the money not paid from federal student financial aid program funds.

**If the student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur:**

- 1) The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.
- 2) The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

### **Return of Title IV R2T4 (Federal Student Aid)**

The law specifies how a school must determine the amount of Title IV program assistance that a student earns if he/she withdraws from school. The Title IV programs that are covered by this law are: Federal Pell Grants, Direct Student Loans, PLUS Loans, and Federal Supplemental Educational Opportunity Grants (FSEOGs).

### **Determination Date / Withdrawal Date (Official / Unofficial Withdrawal)**

The actual last date of attendance is the last day the student was physically in attendance. This is the withdrawal date. The determination of the withdrawal date on a student who had been previously attending could be up to, but will not exceed 14 calendar days from that student's actual last date of attendance. An active student officially withdraws when they notify the school's administrative office of their intention to withdraw from school. An active student is considered unofficially withdrawn when they have been absent for 10 consecutive school days (14 calendar days) from their last date of physical attendance without notifying the school's administrative office.

All R2T4 calculations are completed within 30 days from the Date of Determination (DOD) and all refunds back to the US Department of Education are returned within 45 days from the DOD. Any credit balances currently on the students account, will be disbursed within 14 days of withdrawal.

#### Order of Returns

- Federal Direct Unsubsidized loans
- Federal Direct Subsidized loans
- Federal Direct Parent Loan for Undergraduate Students (PLUS)
- Federal Pell Grant

When a student withdraws during the payment period the amount of Title IV program assistance that he/she has earned up to that point is determined by a specific formula. If the student received (or the school or parent received on the student's behalf) less assistance than the amount that the student earned, the student may be able to receive those additional funds. If the student received more assistance than he/she earned, the excess funds must be returned by the school and/or the student.

The amount of assistance that the student has earned is determined on a pro-rata basis. For example, if the student completed 30% of the scheduled hours in their payment period, the student earns 30% of the assistance he/she was originally scheduled to receive. Once the student has completed more than 60% of the scheduled hours in his/her payment period, the student earns all the assistance that he/she was scheduled to receive for that period.

If the student did not receive all the funds that he/she earned, the student may be due a Post withdrawal disbursement. If the Post-withdrawal disbursement includes loan funds, the academy must get the student's permission before it can disburse them. The student may choose to decline some or all of the loan funds so that he/she doesn't incur additional debt. The academy may automatically use all or a portion of the post-withdrawal disbursement of grant funds for tuition, fees, and room and board charges (as contracted with the school). If the student is eligible for any post-withdrawal disbursements, they will be notified in writing of that eligibility within 30 days. All post-withdrawal funds are credited to the students account first and any resulting credit balance will be disbursed within 14 days of the credit being created.

The school needs the student's permission to use the post-withdrawal grant disbursement for all school charges over and above Tuition and Fees.

There are some Title IV funds that the student was scheduled to receive that cannot be disbursed to him/her upon withdrawal because of other eligibility requirements. For example, if the student is a first-time borrower for student loans and has not completed 30 days of school. That student would not be eligible for any student loan disbursements.

**If any student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur:**

1. The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.
2. The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law. ### Satisfactory Academic Progress Policy

California College of Barbering and Cosmetology’s Satisfactory Academic Progress Policy (SAP) is consistently applied to **all** students enrolled at the school in a NACCAS approved program, regardless of their class schedule. It is printed in the catalog to ensure that **all** students receive a copy prior to enrollment. The policy complies with the guidelines established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the federal regulations established by the United States Department of Education. California College of Barbering and Cosmetology’s Satisfactory Academic Progress Policy includes both quantitative (attendance) and qualitative (academic performance) elements that are evaluated on a cumulative basis, as explained in the policy.

### Evaluation Periods

The frequency of evaluations ensures that students have had at least one evaluation by midpoint in the course. Evaluations will be performed on **scheduled** hours. The chart below details the evaluation points applicable to each program.

<b>Program</b>	<b>Course Length</b>	<b>Evaluation Points</b>

The institution operates all programs according to a schedule of 900 clock hours and 26 weeks per academic year of instruction.

## Transfer Students

Transfer students will be evaluated at the midpoint of the contracted hours or the established evaluation periods, whichever occurs first. SAP evaluation periods are based on actual contracted hours at the institution.

## Attendance Policy – All Programs

Students are required to attend 67% of the scheduled sessions throughout their entire program. By maintaining a cumulative average attendance level of at least 67% of the scheduled hours indicated on the student's enrollment contract at the end of each evaluation period ensures that there will be completion of the student's program within 150% of the scheduled course length which is the maximum time frame in which a student must complete the course.

## Attendance Progress

For a student to be deemed making satisfactory academic progress (quantitative), the student must maintain a minimum attendance average of 67%. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued (clocked by the student), by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 67% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame of one and one-half (1 ½) times the length of the course.

## Academic Progress

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic (qualitative) learning. Students are assigned both academic learning (written exams) and a number of practical evaluations. Academic learning is evaluated during each unit of study, using class quizzes, written exams and practical tests. Practical skills are evaluated according to course rubrics adopted by the school and provided to students. Students must maintain a *cumulative* academic grade average of 70% to maintain satisfactory (academic) progress. **Students may make up failed or missed tests and incomplete assignments, in accordance with the school's published Policy for Scheduling and Grading Make-Up Work, Incomplete's and Repetitions.** A student's grade point average is determined by a combined average of all practical and written examinations. Individual student academic records are kept by the school. Students will be notified of any evaluation that impacts their financial aid eligibility, *if applicable*. The grading scale is listed below.

A	Excellent	90% - 100%
B	Very Good	80% - 89%
C	Satisfactory	70% - 79%
D-F	Fail/Unsatisfactory	69% & below

## Maximum Time Frame

Students are required to complete the program and/or course within 150% of the published program length. The maximum time frame permitted for transfer students who need less than the full course length will be determined based on the number of scheduled hours. Students who exceed the maximum time frame shall be terminated from the program and permitted to re-enroll in the program on a cash-pay basis in a manner consistent with the re-enrollment provisions of the institution's admissions policy.
